COOLING FANS

SPECIALTY FANS

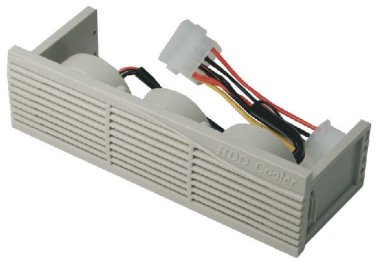
Targeted Cooling For Your System's Needs.

Antec's specialty fans are designed to specifically target critical areas of your system to give the cooling they need to maintain their performance. Whether you need cooling near your expansion cards or for your new high RPM hard drive, Antec has the solution for you. Cooling to fit your needs, that's the Power of You.

UPC# 761345-77051-4

Hard Drive Cooling System - 4 pin

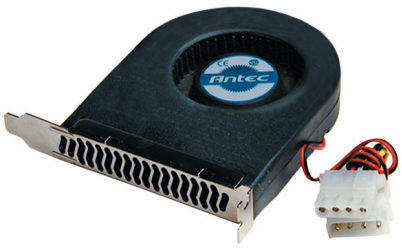
- Aluminum heatsink for maximum heat dispersion
- Two built-in temperature sensors to monitor hard drive and case temperatures
- Two 40mm thermally controlled variable speed fans with washable air filter
- Celsius or Fahrenheit LED temperature display
- Built-in EMI shielding to meet stringent industrial standards
- Supports IDE or SCSI high speed hard drives



UPC 761345-77028-6

Hard Disk Drive Cooler - 4 pin

- Mounts at the front of a 5.25" drive
- 3 fans to enhance cooling of drive
- Airflow: 15 CFM
- Noise: 35 dBA



UPC 761345-77094-1

Cyclone Blower - 4 pin

- 4.4" x 3.5" x 0.8", low noise, high velocity
- Fits into any expansion slot
- Airflow: 22 CFM
- Noise: 28 dBA
